

**Serious Chemicals.
Seriously Flexible.**

CORRUGATED KEMFLEX UHMWPE CHEMICAL HOSE

The same trusted Goodall construction and chemical performance — now engineered with a corrugated cover that delivers dramatically easier handling in demanding chemical transfer applications.

Performance You Trust. Flexibility You'll Notice

- Built with the same premium materials and preferred braided reinforcement as the smooth-cover version
- Retains industry-leading pressure and temperature ratings with exceptional chemical compatibility
- **67% reduction in bend flex force** versus the smooth-cover version – improving handling and ergonomics
- Corrugated cover enhances flexibility without sacrificing flow, durability, or service life

Bottom Line

Chemical resistance and performance that critical applications demand.
Flexibility that operators appreciate.
